

This is important information about Covid-19 and your activity session

Points to adhere to

- 1 If you or any of your household (or occupants of your vehicle) have coronavirus or exhibiting any symptoms PLEASE return to your vehicle and return home. Please then follow the Government advice about coronavirus and isolation.
 - 2 All organisers are requested to check with players (or their parents) that the players do not have coronavirus and are not exhibiting symptoms before attending a session.
 3. If more than one group is on site, we will endeavour to stagger the game times so that groups do not mix in the safe area.
 4. We ask that parents who attend sessions operate 2m social distancing in both the safe area/car park and if they watch the games on the game zones.
 - 5 We will operate a different style of game to maintain social distancing and ask players to operate a ONE player per barricade rule when playing.
 - 6 Social distancing during the safety/induction talk and when in the “elimination zone” during games is essential.
 - 7 Players will be issued a laser tag gun at the start of the session and they must use this all session and not swap with other players. With paintball all masks will be numbered and again players must not swap masks. Paintball guns will also be numbered and we ask that players ensure they are using the correct numbered gun.
 - 8 All clothing is washed after usage and all masks are thoroughly cleaned and sanitised after usage. Laser tag guns and Paintball guns will be cleaned between sessions and laser tag guns will have clean new hats.
 - 9 Hand sanitiser is available and we ask that players use it regularly (they are alcohol based so please ensure you are not allergic to these products). We will clean the toilet regularly but politely ask that players might use their toilet facilities at home before travelling to the site
- To help reduce any risks to the staff and players all staff will wear disposable gloves and face masks during the session and ask players to consider using face masks when they play or spectate.
- 10 Unfortunately we will be suspending the sale of soft drinks, chocolate and food orders from Domino's. You are welcome to bring your own refreshments or call Domino's for deliveries
